

**DECLARATION
OF
ASSOCIATION OF COMMUNITY INTERNET CENTER
(APWKOMITEL)
CONCERNING
THE PROMOTION OF MULTIPURPOSE PUBLIC INTERNET
CENTER THROUGH PUBLIC-PRIVATE PARTNERSHIP**

On Wednesday, 16th November 2005 , WSIS in Tunis, Tunisia , APWKomitel declares The Promotion of Multipurpose Public Internet Center through Public Private Partnership on the following points:

- to precede a showcase of functioning collaboration and partnership in WSIS Tunis, Tunisia 2005, which stated as Public Private Partnership in the WSIS Geneva Plan of Actions Paragraph C8.d.

Note: *Para C8.d stated "Each countries is encouraged to establish at least one functioning Public Private Partnership or Multi Stakeholder Partnership (MSP), by 2005 as a showcase for future action"*

- to continue the development of the Directory of Public Internet Center and Model of Multipurpose Community Internet Center (MCI Center) as written in a book published in Indonesia by Grasindo titled "Multipurpose Community Internet Center"

APWKomitel as Association of Community Internet Center is to be responsible for coordination of the development of public Internet centers by its members for communities in towns and cities in Indonesia with the following initiatives:

1. Directory of Warnet, Cyber-cafe, Telecenter, e-Business center, Wifi / Hot-spot, PC Rental, Virtual Office and Multipurpose Community Internet Center to facilitate communities and people at large finding nearby Internet access and center. The directory also promotes SME business as members, to provide Internet access for public.
2. Future model of Warnet or Cybercafé that we called Multipurpose Community Internet Center. Providing traditional warnet or Cybercafé with model that will sustain their business and service industry.
3. The promotion of the 'Warnet Sekolah' model, where the model can served the function of a school labs during school hours and as public community access center afterward. The program is called OSOL (One School One Labs).

4. The Promotion e-Billing Systems with additional image (photo) authentications feature for Public Internet Center such as Warnet, Cybercafé , Tele-center and MCI Center , to make the Internet a more trusted and secure network.

The Declaration is part of the showcase of Multi Stakeholder Partnership (MSP) as stated in the WSIS Plan of Actions Para C1.8 d & e.
