

**MEMORANDUM OF UNDERSTANDING**

**BETWEEN**

**PT INDOSAT MEGA MEDIA (IM2)**

**AND**

**ASSOCIATION OF COMMUNITY INTERNET CENTER( APWKOMITEL)**

**SUBJECT**

**MULTISTAKEHOLDER PARTNERSHIP (M.S.P) ON INTERNET ACCESS FOR  
PUBLIC INTERNET CENTER**

**No: 0614/DU/IMM/XI/05**

**No: 02/SJ.4/KOMINFO/11/2005**

This Memorandum of Understanding is made on November, 16<sup>th</sup>, 2005 at the Partnership Pavillion in WSIS Tunis, between PT INDOSAT MEGA MEDIA ( IM2) , whose offices are located at Jalan Kebagusan Raya 36 Ragunan Jakarta 12550 refer as IM2,

and

APWKomitel ( Association of Community Internet Center), whose offices are located at Golden Plaza A37, Jl RS Fatmawati 15, Jakarta. 12410. Indonesia. , refer as APWKomitel)

The purpose of this Memorandum of Understanding is: - to precede a showcase of functioning collaboration and partnership in WSIS Tunis 2005, which stated as Public Private Partnership in the WSIS Geneva Plan of Actions Para. C8.d. *Note: Para C8.d stated "Each countries is encouraged to establish at least one functioning Public Private Partnership or MultiSector Partnership(MSP), by 2005 as a showcase for future action"*

- to continue the first part cooperations by APWKomitel and IM2 to provide infrastructure for our Model of Future Internet Center , called MCI Center, as written in a book published by Grasindo titled "Multipurpose Community Internet Center"

Both parties regards WSIS Tunis Summit as an important milestone toward the forming of future Global Information Society in which all States, Governments and Private Sectors are all committed as stated in Geneva Plan of Actions and Declaration of Principles.

APWKomitel as association of Community Internet Center is responsible for coordinating the development of public internet centers by its members for communities in town and cities in Indonesia with the following initiatives:

1. Development of Directory of Warnet, Cybercafe, Telecenter, ebusiness center, Wifi/Hotspot, PC Rental, Virtual Office and Multipurpose Community Internet Center to facilitates communities and people at large finding nearby internet access and center. Also promotes SME business as members, to provide internet access for public.

2. Development of Future model of Warnet or Cybercafe that we called Multipurpose Community Internet Center. Providing traditional warnet or cybercafe with model that will sustain their business and service industry. With MoCIT, promoting model of 'warnet sekolah', where the facility can functioned as a school labs during school hours and as public community access point afterward.

These initiatives show our commitment for Geneva Actions Plan to connect all warnet, MCI Center, telecenter in villages, town, cities in rural and urban area ( Paragraph 6.a) to connect villages with ICT 's and established community access point by 2015).

The MOU is part of the showcase of MultiStakeholder Partnership (MSP) as stated in the WSIS Plan of Actions Para C1.8 d & e.

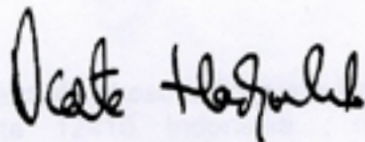

Partnership Paviliun WSIS Tunisia,
