JAKARTA, INDONESIA

Riding the next wave of Wireless Technology

After success with organizing wireless world Asia (January 2002) in Singapore Suntec Exhibition Halls (<http://www.idgexpoasia.com>), the official organizer of Comdex, Wireless World, Linux World is proudly present Wireless World Indonesia in associated with APWKOMITEL and APPKAI the prominent Indonesian Information Technology Communities will presenting **Wireless World Indonesia Conference and Expo 2002** in Jakarta Indonesia.

WirelessWorld Conference & Expo Indonesia 2002, a 2-day premier event, will feature presentations from Indonesian Regulators of ICT, Industry Speakers focusing on the most compelling business and technical issues, and the latest market trends and developments - how Wireless Technology can play a part in revolutionizing business strategies today. Through panel discussions and workshops, it hopes to bring an insight into how Wireless technologies can be exploited into a profitable business, and how it improves corporate efficiency and competitiveness.

This event also offers an attractive showcase of the hottest products and solutions from vendors and consultants.

Who will attend WirelessWorld Conference & Expo Indonesia 2002? At this event, you will meet the Indonesian ICT Regulator and executive level ICT decision makers who need to explore business opportunities, propose and implement new directions for organizations in this new challenging era. This is the ideal platform for our distinguished Speakers and Delegates to network and discuss the opportunities and new business models for Wireless Technology.

The Indonesian Organizers,

Rudy Rusdiah (APW-KOMITEL)

Hillman M Sulaiman (APPKAI)
